

## Wellness Check Agreement

Prior to dropping your child at each CCSC practice you agree, to the best of your knowledge...

- My child does not have a fever of 100.4<sup>0</sup> or above. Temperature should be taken at home.
- My child does not have shortness of breath, persistent cough, rapid breathing or difficulty breathing (without recent physical activity), fatigue, or other symptoms of COVID-19.
- My child has not had or been exposed to someone with Covid-19 in the past 14 days. Parents should communicate with the coach if their child tests positive for Covid-19 during return to play phases.

If your child is sick or has symptoms of an illness, stay home. Stay home regardless of what is causing your illness.

During practice, coaches will make a visual inspection of the child for signs of illness and may ask you to pick up your child or take them home if they exhibit signs of illness.

As a reminder, returning to play is a personal choice, and you should feel comfortable determining for yourself if you would like your child to resume activities in a team environment. We recommend all parents & players communicate with their coaches any questions regarding wellness checks or other player safety concerns.
